Education

2018-Present **NUST Business School, Islamabad**, *Bachelors Accounting and Finance*.

2019-Present **NUST SEecs, Islamabad**, *Minor in Computer Science*.

Experience

Present Currently working in TUKL-NUST as a Research Assistant. Was the first business student ever to get offered a position there

Present Currently am a Teaching Assistant for BS Computer Science course **Data Structures and Algorithms**

2018 Was hired as a Web Developer for designing a website for the **NUST Olympiad** event. I was the only freshman in a team of 4 final year students. I had to learn Django from scratch and the website ended up having over 5000 confirmed registrations from all over Pakistan

2016 Was part of one of the few school teams participating in **NUST Robotics Competition** using LEGO Mindstorm

Projects

Present **Financial Statements Table Extraction**

Started working with Dr. Faisal Shafait to extract useful data from tables in Financial Statements

Present **Cool Finance Project**

Dr. Doctor Professor, NUST Business School

Summer 2019 **Pakistani Stock Market Sentiment Analysis**

Built a monolithic model which performs Sentiment Analysis and N.E.R. to check correlation of news with stock prices

MOOCS

Python for Data Science and Machine Learning Bootcamp | Introduction to Machine Learning - Stanford | Deep Learning Specialization - Deep.ai | CS224N Natural Language Processing with Deep Learning - Stanford

Activities

2019 Attended and helped organize IAPR PPRS 3rd Annual Summer School
